PROFILE

Junior Machine Learning Engineer skilled in Python and Scikit-Learn, with hands-on experience building supervised ML models, data pipelines, and end-to-end small projects. Passionate about using data to solve real-world problems and actively learning advanced ML workflows.

WORK EXPERIENCE

CV Parsing & Scoring

Built a Django app that parses resumes, extracts skills, and scores them using supervised ML models to predict match scores.

ETL + ML Workflow:

Cleaning raw CSV/PDF resume data, extracting structured data, and feeding it into ML pipelines for classification.

Model Evaluation:

Used cross-validation and metrics (accuracy, F1-score) to evaluate and improve models on real, messy datasets.

EDUCATION

Bachelor of computer science and information technology
Central campus of technology
